EDUCATION

- **Universidade do Minho**

Bachelor of Computer Science

Braga, Portugal

Jun 2015

EXPERIENCE

- **Fleek**

Lead Software Engineer

Remote

Jan 2024 – Current

- Improved load times of static sites hosted on Fleek by ~90%, including our own with only changes to Fleek's underlying infrastructure.
- Oversaw the launch of a Javascript, decentralized edge serverless function service, based on the Deno core library.
- Added support for Next.js apps on our serverless functions.
- Managed team of 6 in the development and implementation of new features.
- Worked closely with the executive team, developing the roadmap and suggesting new features.
- Built AI agents that acted as Social Media influencers using Langgraph.

- **Clipboard Health**

Senior Software Engineer

Remote

Jun 2023 – Jan 2024

- Migrated the notification infrastructure to Braze.
- Automated the shift verification flow to reduce the support team's workload by 10%.

- **Playco**

Lead Software Engineer

Remote

Oct 2022 – Apr 2023

- Managed team of 3 in the development and implementation of new features.

Senior Software Engineer

Jan 2022 – Oct 2022

- Developed a game deployment application that had >2000 games published in production.
- Implemented a pipeline to deploy new game builds to production in seconds.

- **IptiQ by SwissRe**

Engineering Manager

Zürich, Switzerland

Aug 2021 – Dec 2021

- Managed a team of two people in a production environment supporting development of new insurance products while maintaining support for existing products.

Senior Software Engineer

Nov 2019 – Aug 2021

- Stabilized the emailing and document services from ~3 incidents a day to ~3 a month.
- Considered one of the highest performers of the engineering team.

- **Mindera**

Software Engineer / Tech Lead

Porto, Portugal

Nov 2015 – Oct 2019

- Led company wide initiatives to foster growth in teams (retros, code dojos, guild meetings).
- Improved warehouse operations of a client, resulting in a ~20% increase in productivity.
- Reduced the generation time of real time reports for a client's warehouse activities by ~97%.
